

Find the slope-intercept form of the equation of the line that best fits the data.

7)

X	Y	X	Y	X	Y
2	150	41	640	91	800
11	280	50	680	97	770
27	490	63	770	98	790
27	500				

Construct a scatter plot. Find the slope-intercept form of the equation of the line that best fits the data and its r^2 value.

8)

X	Y	X	Y
0.1	2,000	5	5,000
0.1	2,000	6.7	6,000
2.6	3,000	7.9	7,000
3.7	4,000	8.5	8,000
3.8	4,000	9.4	8,000
