

Area Under a Curve

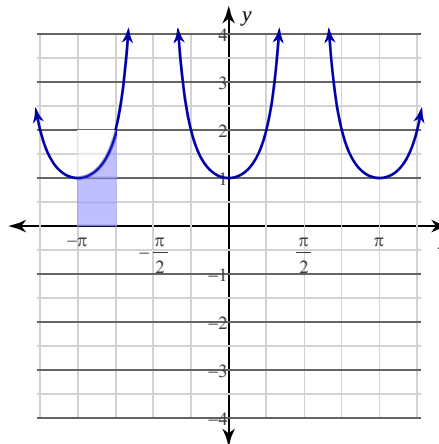

Date _____ Period _____

For each problem, find the area under the curve over the given interval.

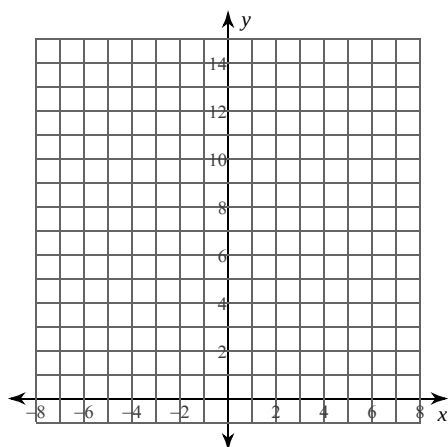

1) $y = \frac{4}{x^2}; [-2, -1]$

2) $y = \sec^2 x; [-\pi, -\frac{3\pi}{4}]$

**For each problem, find the area under the curve over the given interval. You may use the provided graph to sketch the curve and shade the region under the curve.**

3) $y = \sqrt{x}; [4, 5]$

4) $y = -\cos x; [\frac{3\pi}{4}, \pi]$
