

Mental Math Mania!

Astronauts, engineers, scientists and budget analysts at NASA need to know their numbers. Test your skills with this math square.

Instructions:

1. Fill in the missing numbers to complete the math square.
2. Use the numbers 1 through 9 to complete the equations.
3. Each number is used only once.
4. Each row is a math equation.
5. Each column is a math equation.

	x		-		3
+		-		x	
	-		x		-69
x		/		-	
	x		+		10
8		0		57	

Hint: Remember that multiplication and division are performed before addition and subtraction.
