

Insect Studies!

Many onboard experiments involve insects. Insects' simple genetic codes and short life cycles make them ideal for many research studies onboard the Space Station. Are you familiar with the life cycle stages of such insects as the fruit fly? If so, number the stages shown here in their correct order, by putting the numbers 1 – 5 in the boxes below.

ADULT

PUPA

LARVAE

HATCHING

EGG

Bonus activity

Research fruit flies, then find a picture of fruit flies and color the pictures above to make them look realistic – like real fruit flies!
