

Find the exact value of each expression.

9) $\csc^{-1}(\cos 0)$

10) $\cos \sec^{-1} \frac{2\sqrt{3}}{3}$

11) $\csc \sec^{-1} \frac{\sqrt{6}}{2}$

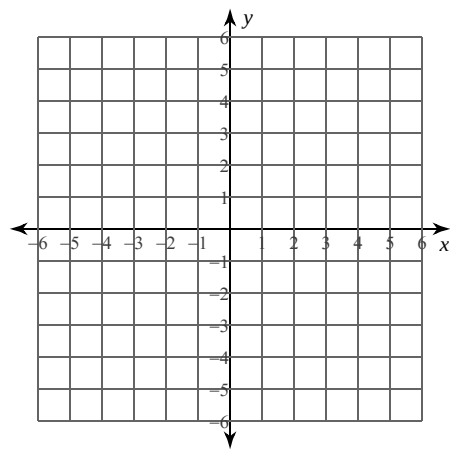

12) $\sin^{-1}(\sec 0)$

13) $\sec \cot^{-1} \frac{2\sqrt{21}}{21}$

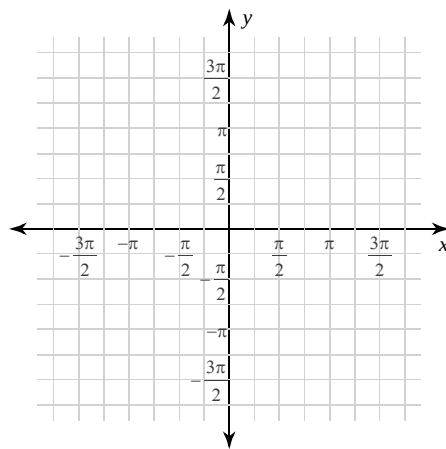

14) $\tan^{-1}(\sec \pi)$

Identify the domain and range of each. Then sketch the graph.

15) $y = \sin \cot^{-1} x$

16) $y = \tan^{-1}(\cot x)$

Write each trigonometric expression as an algebraic expression.

17) $\sin \tan^{-1} x$

18) $\csc \cot^{-1} x$

19) $\sec \cot^{-1} x$

20) $\sec \cos^{-1} x$
