

Parametric Equations

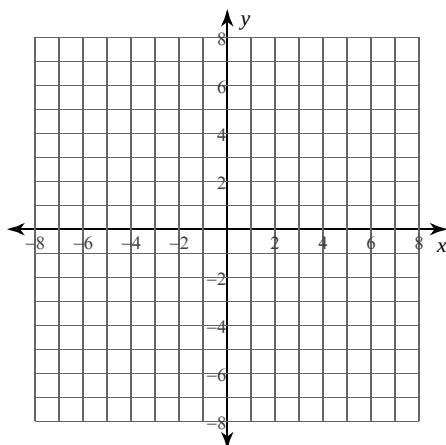

Date_____ Period____

Sketch the curve for each pair of parametric equations.

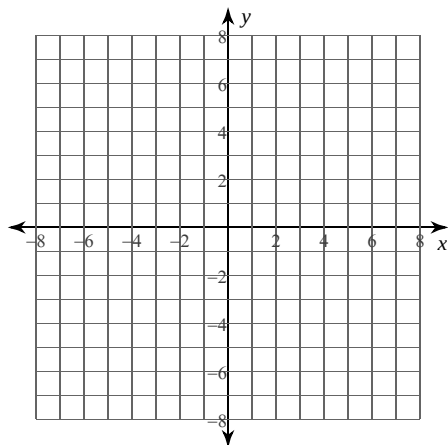

1) $x = t, y = \frac{t^2}{4}$

2) $x = -2t + 2, y = \frac{4t^2}{5} - 2, -2 \leq t \leq 3$

3) $x = 5\sin t, y = 4\cos t$

4) $x = 2\sec t, y = 4\tan t$
