

Ellipses

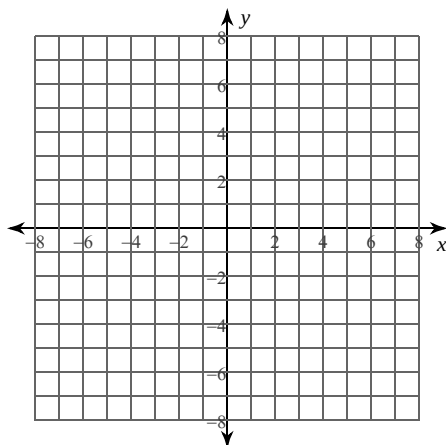

Date_____ Period____

Identify the center, vertices, co-vertices, and foci of each. Then sketch the graph.

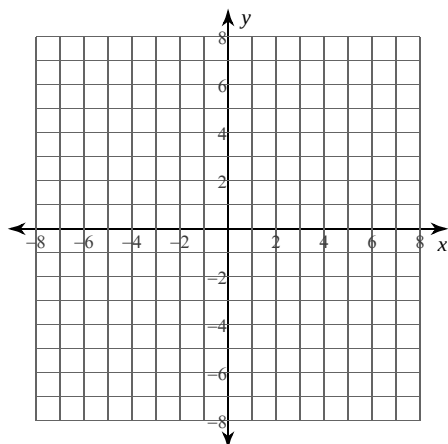

1) $\frac{(x+3)^2}{16} + \frac{(y-1)^2}{4} = 1$

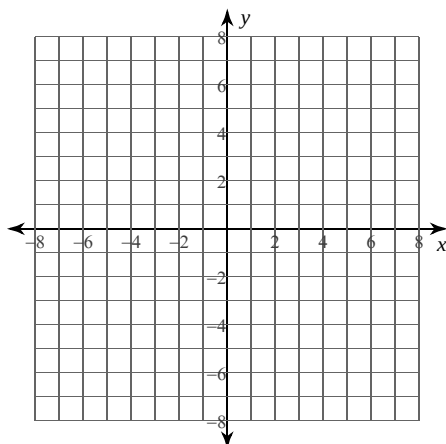

2) $\frac{(x-3)^2}{5} + \frac{(y-1)^2}{15} = 1$

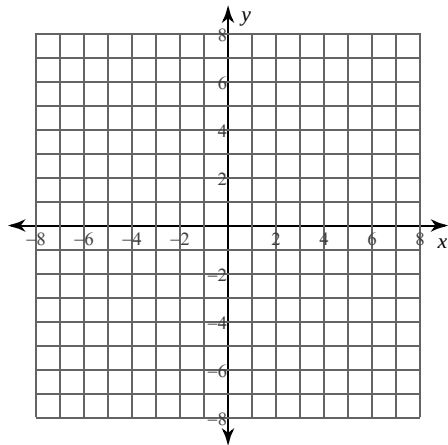

3) $\frac{(x-1)^2}{9} + \frac{(y+5)^2}{4} = 1$

4) $\frac{x^2}{49} + \frac{(y-3)^2}{9} = 1$

5) $x^2 + 9y^2 + 6x - 90y + 225 = 0$

6) $9x^2 + 4y^2 - 36x + 24y + 36 = 0$
