

Motion Along a Line

Date _____ Period _____

A particle moves along a horizontal line. Its position function is $s(t)$ for $t \geq 0$. For each problem, find the velocity function $v(t)$. The graph of $s(t)$ is provided. Use the blank graph to sketch $v(t)$.

1) $s(t) = t^2 - 25t + 156$

2) $s(t) = t^3 - 16t^2 + 64t$
